Experience

CANADA MORTGAGE AND HOUSING CORPORATION

Vancouver, BC

Specialist, Housing Economics

Apr 2023 – Present

- Coordinated Western Canada forecasts with Chief Economist team over macroeconomic scenarios and financial market conditions.
- Developed Databricks infrastructure for analyzing rental market micro-data and Statistics Canada census tables.

Senior Analyst, Economics

Feb 2020 – Apr 2023

- Led housing market and economic analysis of the Calgary CMA while coordinating with Western Canada and National teams by authoring reports covering affordability, the rental market, housing supply, and stability.
- Engineered data analysis pipelines and tools using Python to modernize and innovate analytical methods including creating 20 years of geo-spatial resales data for the Vancouver CMA.
- Forecasted annual housing activity using econometric and time series models such as SARIMAX, ARDL, ARMA.
- Experienced public speaker at industry events with high profile attendees.
- Represented the CMHC as a media spokesperson on economic and housing matters through television, radio, online, and print journalism outlets such as CBC, Global News and CTV.
- Partnered with leading industry stakeholders in multiple levels of government, as well as private sector partners including developers, property managers, realtors, and real estate associations to further housing affordability and collaboration.

CMLS FINANCIAL

Vancouver, BC

Analyst, Mortgage Analytics Group

Nov 2019 – Feb 2020

- Delivered monthly commentary on Canadian macroeconomic events and figures to institutional partners.
- Developed business intelligence dashboards using Tableau and PowerBI to visualize and analyze corporate PNL pipelines.
- Formulated and conducted a Quarterly Sentiment Survey on the Commercial Mortgage lending market, with over 30 institutional participants including investment managers, banks, and insurance corporations.

CANADA MORTGAGE AND HOUSING CORPORATION

Vancouver, BC

Junior Analyst, Market Analysis Centre

Jun 2017 – Aug 2018

- Spearheaded development of a proprietary relational database of over 75 million datapoints using Python and SQL to easily conduct analysis of micro-data.
- Conducted underwriting feasibility analyses of a dozen multi-unit rental buildings valued above \$10m each, in major British Columbian metropolitan areas.

Education

UNIVERSITY OF BRITISH COLUMBIA

Vancouver, BC
